Glove Details:

The PG241 is a Multi-Norm dual dipped glove providing water repellency, contact heat and cold protection. A layer of highly flexible Latex provides water repellency while not inhibiting movement. Ultimate grip is achieved through a second coating of advanced Latex micro foam. This glove offers superior performance in the most demanding conditions.

Selected Features:

- Seamless thermal knitted liner provides warmth in cold conditions
- Highly flexible Latex coating allows for comfortable hand movement
- First coating provides water repellency, second coating provides excellent grip
- Fully coated thumb for extra protection
- Excellent grip in wet and dry conditions
- Level 2 protection against intermittent heat contact up to 250°C
- Level 2 protection against contact cold

Glove Benefits:

- Excellent Grip
- Water-Repellency
- Contact Heat Resistance
- Cold Protection
